THE PRESS THAT GROWS WITH YOU

Shoulder presses can be difficult for some, due to the high starting weight on most machines. Our low starting resistance and adjustable seat allow almost anyone to begin a shoulder exercise program. It is ideal for beginners and older adults. From a performance standpoint, it challenges the strongest and fastest among us.

KEISER DYNAMIC VARIABLE RESISTANCE

Keiser's **Dynamic Variable Resistance** is designed to provide a smooth consistent Variable Resistance force curve at any training speed. Each machine has its own unique Variable Resistance curve designed and tuned perfectly for the muscles being used in that particular exercise. For users, this means that working out any speed, you'll always be training at maximum efficiency.
