

KEISER STRENGTH

RACKS

TINY BUT POWERFUL **HALF RACK**

Models 3103 and 3104

PUSHING THE LIMITS OF HUMAN PERFORMANCE

At Keiser, we're constantly innovating to reach the next level of human performance. We're never satisfied with the status quo. Even if it's our status quo. Because... Strong can be stronger. Fast can be faster. Power can be more powerful. Because science is on our side. **Because... 'Good Enough' Isn't.**

KEISER

KEISER STRENGTH

All Keiser patented hybrid Racks combine Keiser **Dynamic Variable Resistance** and iron weight resistance. Keiser Dynamic Variable Resistance pulls straight down on the bar [just like gravity] and follows the bar as it moves horizontally. You can train at any speed, from controlled to explosive, developing Power and Stability.

RACKS HALF RACK

Models 3103 and 3104

AMAZING BENEFITS, SMALL FOOTPRINT

The Half Rack does begin to tighten things up, especially the amount of floor space it requires. We still provide a short version of the foot operated resistance controls provided on the Power Rack and Half Rack Long Base. It's a great way to get the explosive benefits of Keiser in a smaller footprint.
